**CA FUNSTA** *MSP - Minimum Support Price*

**Part 2**

How are MSPs determined?

- The centre fixes MSPs for every Kharif and Rabi cropping season based on recommendations of the Commission for Agricultural Costs and Prices (CACP).
- When a farmer grows a crop, he incurs costs, some of it explicit and some implicit or unpaid. The CACP considers the following costs.

- A2+FL** Actual costs plus an imputed value of unpaid family labour
- C2** Includes 'A2+FL' along with forgone on owned land (rent) and fixed capital assets (interest)

### History of MSP

- MSP was introduced in the mid-sixties when India was food-deficit.
