➤ **What is the main objective of the Rs 60,000 crore upgrade project for the Su-30MKI fighter jet fleet?**

- A) Increase top speed
- B) Enhance electronic warfare capabilities
- C) Improve fuel efficiency
- D) Add decorative features
- E) Reduce aircraft weight

Answer

B) Enhance electronic warfare capabilities

Explanation

- **Hindustan Aeronautics Limited (HAL), with support from the Defence Research and Development Organisation (DRDO), will be involved in the Rs 60,000 crore worth upgrade of the Su-30MKI fighter jet fleet.**
- The project, approved by the defence ministry, aims to enhance the aircraft's capabilities with new radars, mission control systems, electronic warfare capabilities, and integration of new weapon systems.
- The project is divided into two phases, with the first focusing on installing new avionics and radars, while the second phase concentrates on flight control systems.

Key upgrades:

- The installation of a new indigenous radar system to enhance target detection and engagement capabilities, addressing previous concerns about radar performance.
- The aircraft will be equipped with a new electronic warfare system to counter incoming threats and disrupt enemy communication.
- The integration of indigenous infrared search and track systems will significantly improve air-to-air and air-to-ground targeting capabilities.

Note:

- Approximately 90 fighters are slated for upgrade in the initial phase, which will be entirely conducted in India.
- India's initial order of 272 Su-30MKI jets from Russia forms the backbone of the Air Force's fighter fleet, with an additional order for 12 jets cleared last year.
- HAL will manufacture these jets, incorporating over 50 per cent indigenous content.
- With over 600 Su-27/30 type aircraft manufactured globally, countries like Vietnam, Malaysia, Indonesia, and Algeria present a significant export market for these upgrades.
