➤ Which two Indian organizations recently signed an agreement to develop a Multiport Switch with Tuneable Impedance Matching Network for a single broadband antenna covering 2G, 3G, 4G, and 5G bands?

- A) ISRO and DRDO
- B) C-DOT and CSIR-CEERI
- C) IIT Delhi and TCS
- D) BEL and HAL
- E) BHEL and C-DAC

Answer

B) C-DOT and CSIR-CEERI

Event and Location:

- **Event:** Signing of an agreement between C-DOT (Centre for Development of Telematics) and CSIR-CEERI (Central Electronics Engineering Research Institute, Pilani)
- **Location:** India

Mandates and Objectives:

- **Project Focus:** The collaboration aims to develop a Multiport Switch with Tuneable Impedance Matching Network that allows a single broadband antenna to operate across 2G, 3G, 4G, and 5G bands. This aligns with India's Bharat 6G Vision and the "**Made in India**" initiative.

Mandates and Objectives:

- **Technology and Funding:**
 - **MEMS-based Switching Network:** The project will use Microelectromechanical Systems (MEMS) technology to enhance antenna performance, supporting multiple communication bands in a single device without interference.
 - **Funding Source:** The project is funded under the Telecom Technology Development Fund (TTDF) scheme by the Department of Telecommunications (DoT), a government initiative to support Indian startups, academia, and R&D in telecom.

Significance for Indian Telecom:

- **Future-Ready Solution:** The technology will make Indian telecom infrastructure adaptable for future communication systems, including 6G, enhancing self-reliance in telecom R&D.
- **Leadership in Innovation:** The project supports Bharat 6G Vision, aiming for a robust and self-sufficient Indian telecom sector that can develop advanced telecom solutions domestically.

Important Terms Explained:

- **C-DOT (Centre for Development of Telematics):** A premier telecom R&D body under the Department of Telecommunications, leading telecom technology innovations in India.
- **CSIR-CEERI:** Part of the Council of Scientific and Industrial Research (CSIR), focusing on advanced electronics and communication research.
- **MEMS Technology:** Micro-electromechanical systems (MEMS) enable miniaturized components and systems used in various electronic applications, like multi-band telecom solutions.

Static GK Information:

- **C-DOT (Centre for Development of Telematics)**
 - **Founded:** 1984
 - **Headquarters:** New Delhi, India
 - **CEO:** Dr. Rajkumar Upadhyay
- **CSIR-CEERI (Central Electronics Engineering Research Institute)**
 - **Headquarters:** Pilani, Rajasthan, India
 - **Primary Focus:** Research in electronics and advanced communications

➤ What is the primary objective of the newly launched Mine Opening Permission module by the Ministry of Coal on the Single Window Clearance System (SWCS) portal?

- A) To simplify and accelerate the approval process for opening coal mines
- B) To monitor coal mine production in real-time
- C) To regulate coal prices in the domestic market
- D) To establish a new environmental compliance system for coal mines
- E) To provide financial support to new mining companies

Answer

A) To simplify and accelerate the approval process for opening coal mines

Event and Location:

- **Event:** Launch of Mine Opening Permission Module on SWCS Portal
- **Location:** Ministry of Coal, India (inaugurated by Shri Vikram Dev Dutt in New Delhi)

Mandates and Objectives:

- **Objective:** The primary aim is to simplify and accelerate the approval process for opening coal mines, ensuring faster permissions.
- **Efficiency and Transparency:** The module enhances transparency and efficiency in processing approvals, while significantly reducing processing time.
- **Investment and Energy Security:** This initiative promotes ease of doing business and supports a more investment-friendly environment in the coal industry, aligning with India's vision of energy security and self-reliance.

Important Terms Explained:

- **Single Window Clearance System (SWCS):**
 - Launched on 11th January 2021 as a digital platform for consolidating all necessary clearances and approvals to operationalize coal mines.
 - Allows for online applications, real-time tracking, and eliminates manual paperwork.
- **Mine Opening Permission Module:**
 - A module on the SWCS platform, simplifying the process of obtaining permission to open new coal mines or seams, enhancing efficiency through reduced processing time and increased transparency.

Static GK Information:

- **Ministry of Coal, India**
 - **Founded:** 1974
 - **Minister:** Pralhad Joshi
 - **Headquarters:** New Delhi, India
- **Single Window Clearance System (SWCS)**
