- **What major tax change was introduced in the coal sector during the 56<sup>th</sup> GST Council meeting?**
- A) GST rate reduced to 1%
  - B) Compensation cess increased to ₹500 per ton
  - C) GST on coal increased to 18% and compensation cess removed
  - D) GST on coal made nil for power sector
  - E) GST on coal revised based on calorific value

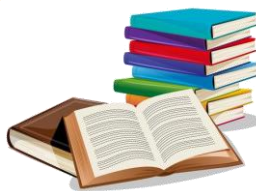

**Answer**

**C) GST on coal increased to 18% and compensation cess removed**

## Event and Location:

- **Event:** 56<sup>th</sup> GST Council Meeting – Key Reforms in Coal Sector Taxation
- **Location:** New Delhi
- **Date:** September 11, 2025

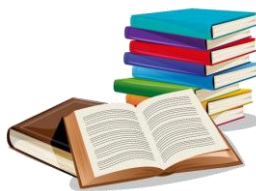

## Mandates and Objectives:

- **Mandates:**
  - Removal of ₹400 per ton GST Compensation Cess on coal.
  - Increase in GST rate on coal from 5% to 18%.
  - Uniform taxation across coal grades G6 to G17.
  - Elimination of inverted duty structure in the coal sector.

## Mandates and Objectives:

- **Objectives:**
  - To rationalise the tax burden across different coal grades.
  - To reduce power generation costs.
  - To boost domestic coal competitiveness and reduce imports.
  - To unlock blocked input tax credits for coal producers and enhance liquidity.

## Important Terms Explained:

- **GST Compensation Cess:** A levy imposed to compensate states for revenue loss after GST rollout, previously applied at ₹400/ton on coal regardless of grade or price.
- **Inverted Duty Structure:** A situation where input taxes are higher than output taxes, resulting in blocked tax credits that cannot be refunded, leading to liquidity issues.

## Important Terms Explained:

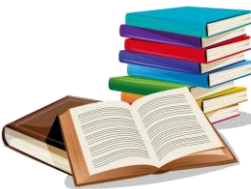

- **Aatmanirbhar Bharat:** A vision for making India self-reliant across sectors, including reducing dependence on imports such as high-grade coal.
- **Coal Grades (G2 to G17):** Classification of coal in India based on Gross Calorific Value (GCV) – higher grades (G2) have better energy output than lower ones (G17).

## Tabular Summary:

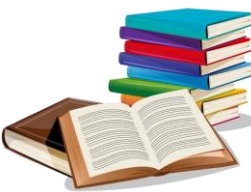

Parameter	Details

- **Location:** New Delhi
- **Date:** September 11, 2025

## Mandates and Objectives:

- **Mandates:**
  - Reduction of GST rates on key items linked to mining, handicrafts, construction, and essential household goods.
  - Items include marble, granite, sand-lime bricks, aluminium utensils, brass stoves, handicrafts, and transport services.

## Mandates and Objectives:

- **Objectives:**
  - Provide relief to the middle class, rural population, and low-income households.
  - Promote housing, artisan industries, and MSMEs.
  - Reduce construction costs, improve demand for essential goods, and support 'Make in India' and cultural preservation.
  - Facilitate cheaper transportation of mined goods, boosting logistics for sectors like iron ore.

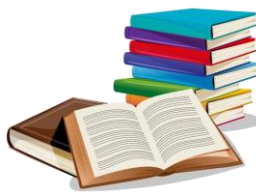

## Important Terms Explained:

- **GST Council:** Apex body chaired by the Union Finance Minister to make decisions regarding tax rates and structure under the Goods and Services Tax (GST) regime.
- **Make in India:** A government initiative launched in 2014 to encourage companies to manufacture in India and boost domestic production and innovation.

## Important Terms Explained:

- **Multimodal Transport:** The movement of goods using more than one mode of transportation (e.g., rail + road), now attracting a concessional GST rate of 5% to promote cost-efficiency.
- **MSMEs:** Micro, Small, and Medium Enterprises, considered the backbone of India's manufacturing and artisan sector.

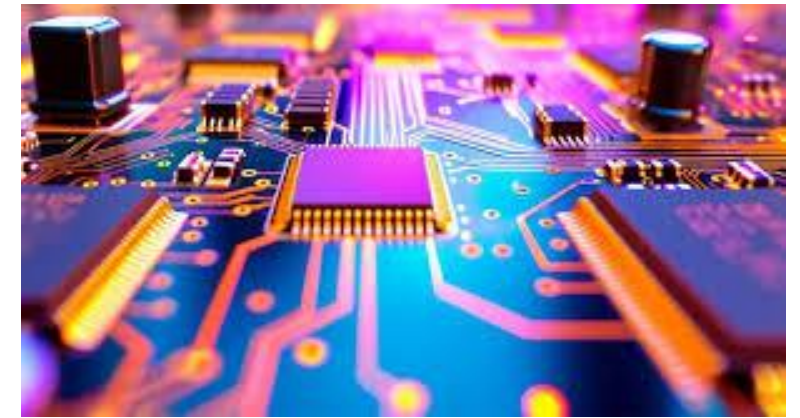

## Tabular Summary:

Parameter	Details
Event name	GST Reforms for Mining and Allied Sectors

- A) Infosys
- B) Wipro
- C) Tata Consultancy Services
- D) HCLTech
- E) Tech Mahindra

**Answer**

**C) Tata Consultancy Services**

## Event and Location:

- **Event:** Launch of Chiplet-based System Engineering Services by TCS
- **Location:** India (with deployment in North America)
- **Date:** September 11, 2025

## Mandates and Objectives:

- **Mandates:** Tata Consultancy Services (TCS) introduced Chiplet Engineering Services to assist semiconductor firms in designing advanced, modular chips using chiplet technology.
- **Objectives:** To accelerate semiconductor innovation, reduce chip design bottlenecks, support AI processor development, and contribute to India's growing semiconductor ecosystem.

## Important Terms Explained:

- **Chipselets:** Small functional integrated circuits that can be combined to build a complete processor or system-on-chip, improving flexibility, performance, and scalability.
- **UCle (Universal Chiplet Interconnect Express):** An open industry standard that enables interoperability between chiplets from different vendors in a unified package.

## Important Terms Explained:

- **India Semiconductor Mission:** A ₹76,000 crore government initiative launched to make India a global semiconductor design and manufacturing hub.
- **2.5D/3D Interposers:** Advanced packaging technologies that allow stacking or side-by-side placement of chiplets for better performance and power efficiency.

## Tabular Summary:

Parameter	Details
Event name	Launch of Chiplet-based System Engineering Services
Announcement date	September 11, 2025
Location	India (with client deployment in North America)
Issuing authority	Tata Consultancy Services (TCS)
Policy/series name	TCS Chiplet Engineering Services
