- A) Bhavnagar Gujarat
- B) Mundra Gujarat
- C) Surendranagar Gujarat
- D) Jamnagar Gujarat
- E) Kutch Gujarat

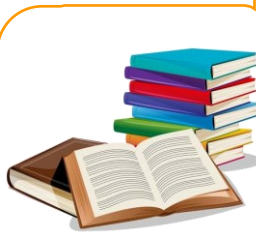

Answer

C) Surendranagar Gujarat

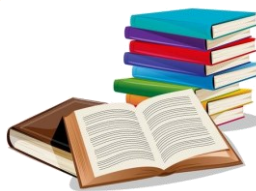

Event and Location:

- **Event:** Commissioning of first phase of 100 MW wind project by ACME Solar
- **Location:** Surendranagar, Gujarat
- **Date:** October 18, 2025

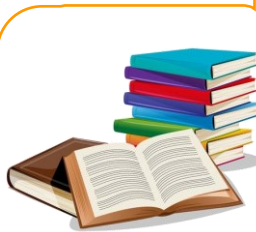

Mandates and Objectives:

- **Mandates:** ACME Solar commissioned the 28 MW first phase of its 100 MW wind power project in Gujarat, increasing its total operational renewable capacity to 2,918 MW.
- **Objectives:** To expand clean energy capacity, fulfill a 25-year Power Purchase Agreement (PPA) with Gujarat Urja Vikas Nigam Ltd (GUVNL), and strengthen India's renewable energy transition.

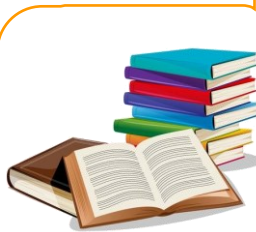

Important Terms Explained:

- **Power Purchase Agreement (PPA):** A long-term contract between an electricity generator and a power purchaser (typically a utility) to buy electricity at a fixed rate over a set period.
- **EPC (Engineering, Procurement, and Construction):** A form of contracting arrangement where the contractor is responsible for all activities from design to commissioning of a project.

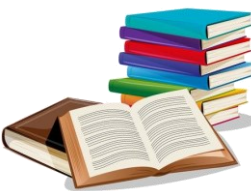

Important Terms Explained:

- **Pooling Station:** An electrical node where power from multiple generating sources is collected and transmitted through a shared evacuation infrastructure.
- **Power Finance Corporation (PFC):** A government-owned financial institution under the Ministry of Power, which provides funding for power projects across India.

Tabular Summary:

Parameter	Details
Event name	Commissioning of 28 MW phase of 100 MW wind project

Location	Surendranagar, Gujarat
Issuing authority	ACME Solar Holdings
Policy/series name	ACME Eco Clean Wind Project
Key figures	Manoj Kumar Upadhyay (Founder & CEO, ACME Solar)
Purpose/reason	To increase renewable energy capacity and fulfill long-term PPA obligations
Feature details	Financed by PFC, built in-house, pooled at 33/220 kV, connected via 220 kV line
Validity or status	28 MW commissioned; 72 MW to be completed
Strategic/significant value	Strengthens India's green energy push and meets long-term energy commitments

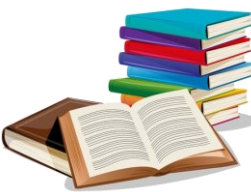

➤ **Why is the Samsung Electronics owner family selling a \$1.2 billion stake in the company?**

- A) To invest in Tesla
- B) To fund chip R&D projects
- C) To cover inheritance tax and loans
- D) To expand Samsung's global offices
- E) To fund a government-mandated divestment

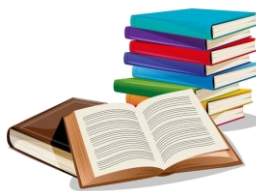

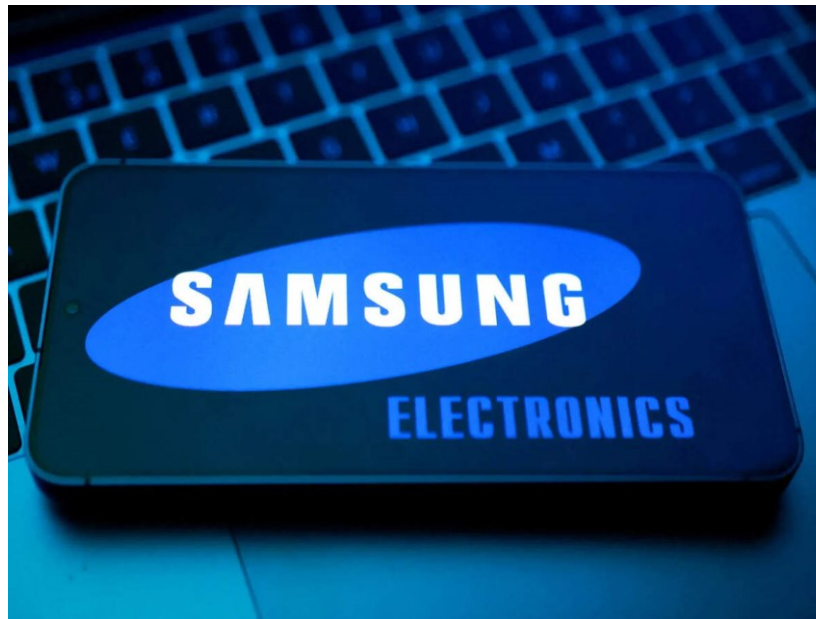

Answer

C) To cover inheritance tax and loans

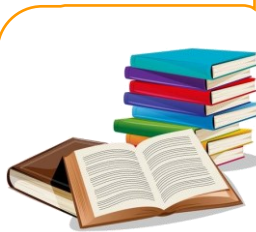

Event and Location:

- **Event:** Samsung Electronics owner family to sell \$1.2 billion stake
- **Location:** Seoul, South Korea
- **Date:** October 18, 2025

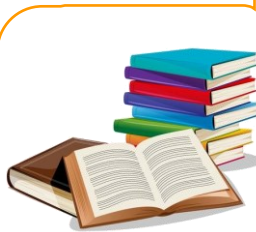

Mandates and Objectives:

- **Mandates:** The mother and two sisters of Samsung Electronics Chairman Jay Y. Lee will sell 17.7 million shares (0.3%) valued at 1.73 trillion won (\$1.22 billion), as disclosed in a filing with the Korea Exchange.
- **Objectives:** To cover inheritance tax liabilities and repay loans related to the estate of Lee Kun-hee, the late Samsung Group chairman who passed away in 2020.

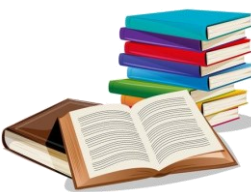

Important Terms Explained:

- **Inheritance Tax:** A tax paid by heirs on assets passed down after the death of a family member; in this case, the Samsung family faces a massive 12 trillion won liability following the death of Lee Kun-hee.
- **Share Buyback:** A corporate strategy where a company repurchases its own shares from the marketplace, often to support share price or consolidate ownership—Samsung initiated a 10 trillion won buyback to protect stock value.

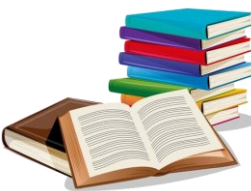

Important Terms Explained:

- **Retail Shareholders:** Individual investors (non-institutional) who own shares—Samsung Electronics has around 5 million retail investors, making it a widely held "national stock" in South Korea.

Tabular Summary:

Parameter	Details
Event name	Samsung Electronics owner family to sell shares worth \$1.22 billion
Announcement date	October 18, 2025
Location	Seoul, South Korea
Issuing authority	Samsung Electronics / Korea Exchange regulatory filing

➤ Which Indian space mission made the first-ever direct observation of the Sun's impact on the Moon's surface?

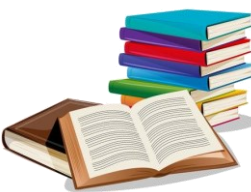

- A) Chandrayaan-1
- B) Chandrayaan-3
- C) Gaganyaan
- D) Aditya-L1
- E) Chandrayaan-2

Answer
E) Chandrayaan-2

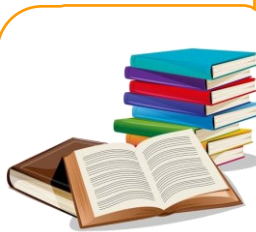

Event and Location:

- **Event:** Chandrayaan-2 orbiter records first direct observation of solar wind interaction with the Moon
- **Location:** Moon's surface (via Indian lunar orbiter)
- **Date:** October 19, 2025 (announcement by ISRO)

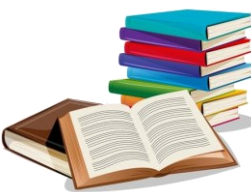

Mandates and Objectives:

- **Mandates:** The Chandrayaan-2 orbiter, using its onboard X-ray spectrometer, detected how solar winds interact with the lunar regolith, causing chemical and physical changes on the Moon's surface.
- **Objectives:** To advance the global scientific understanding of the Moon's space environment, lunar surface evolution, and to support future lunar resource utilization and deep space missions through first-hand data from the lunar orbit.

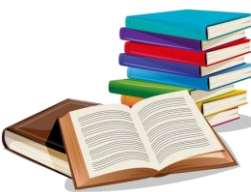

Important Terms Explained:

- **Chandrayaan-2:** India's second lunar mission launched by ISRO in July 2019, consisting of an orbiter, lander (Vikram), and rover (Pragyan). Despite the lander's crash, the orbiter continues to function and send valuable scientific data.
- **Solar Wind:** A stream of charged particles (mainly electrons and protons) emitted by the Sun, which interacts with celestial bodies, including the Moon, especially since the Moon lacks a global magnetic field or atmosphere.

Important Terms Explained:

- **Lunar Regolith:** A layer of loose, fragmented material covering solid rock on the Moon's surface. It is formed by continuous meteorite impacts and space weathering, and it reacts to solar wind exposure.
