➤ **According to India Ratings, what key risk do the new RBI gold loan norms and rising gold prices pose to gold financiers?**

- A) Fall in gold demand
- B) Low customer turnout
- C) Higher loan-to-value risk due to price volatility
- D) Decline in NBFC profits from gold exports
- E) Increase in gold import duty

Answer

C) Higher loan-to-value risk due to price volatility

Event and Location:

- **Event:** India Ratings flags risks from new RBI gold loan norms amid rising prices
- **Location:** Mumbai, India
- **Date:** November 20, 2025

Mandates and Objectives:

- **Mandates:**
 - The Reserve Bank of India (RBI) introduced revised gold loan norms, including the classification of loans as Consumption Loans (CLs) and Income Generating Loans (IGLs). These changes allow flexibility in computing Loan-to-Value (LTV) ratios for different loan types.

Mandates and Objectives:

- **Objectives:**
 - To provide clarity and structural flexibility in gold loan product design, while ensuring better credit risk assessment and control across NBFCs and other gold lenders, especially amid rising gold prices.

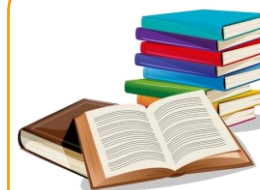

Important Terms Explained:

- **Loan-to-Value (LTV):**
 - A metric used by lenders to assess the risk of lending. In gold loans, it represents the percentage of the gold's market value that can be lent.
 - A higher LTV increases lender risk during price volatility.
- **Consumption Loans (CLs):**
 - Gold loans used for personal consumption purposes, typically of lower ticket size and short tenure.
 - These carry relatively higher risk when interest accrues and pushes the effective LTV.

Important Terms Explained:

- **Income Generating Loans (IGLs):**
 - Gold loans granted for business or income-generating purposes.
 - These are usually of larger ticket sizes (above ₹2.5 lakh), and have a higher exposure to price volatility and default risk.
- **Non-Bullet Loan:**
 - A loan with periodic repayments (interest and/or principal) unlike bullet loans, where repayment happens in a lump sum at the end.
 - Structuring non-bullet loans without accounting for accrued interest may inflate LTV inadvertently.

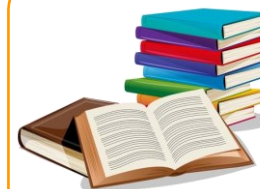

BANKING AND FINANCE

Tabular Summary:

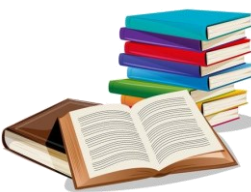

Parameter	Details
Event name	India Ratings highlights risk in gold loan structures under new RBI norms
Announcement date	November 20, 2025
Location	Mumbai, India
Issuing authority	Reserve Bank of India (RBI)
Policy/series name	Revised Gold Loan Framework
Key figures	Karan Gupta (India Ratings), RBI
Purpose/reason	To ensure risk control amidst rising gold prices and flexible loan structures
Feature details	Loans split into CLs and IGLs; LTV computed with flexibility; real-time monitoring needed
Validity or status	Active framework; under regulatory scrutiny
Strategic/significant value	Aims to secure gold lenders from potential shocks caused by gold price volatility

Mandates and Objectives:

- **Mandates:**
 - Starbucks, through its global trading subsidiary Starbucks Coffee Trading Company (SARL), and Tata Starbucks Private Ltd. launched the Farmer Support Partnership (FSP) in India to improve coffee farming practices and build climate resilience.
- **Objectives:**
 - To empower 10,000 Indian coffee farmers by 2030 through the introduction of global agronomy best practices, climate-smart farming, digital training, and the donation of 1 million high-yield Arabica seedlings over the next five years.

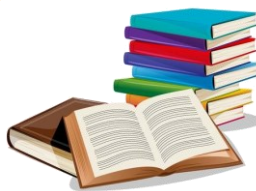

Important Terms Explained:

- **Farmer Support Partnership (FSP):**
 - A collaborative initiative between Starbucks and Tata Starbucks to support Indian coffee growers by creating model farms, enabling digital agronomy training, and promoting climate resilience and profitability in coffee production.
- **C.A.F.E. Practices (Coffee and Farmer Equity):**
 - A Starbucks ethical sourcing program promoting transparency, social responsibility, and environmental standards in the coffee supply chain.

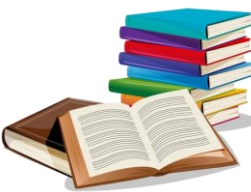

Important Terms Explained:

- **Regen-Ag (Regenerative Agriculture):**
 - An approach to farming that improves soil health, carbon sequestration, biodiversity, and climate resilience, being promoted under the FSP to future-proof Indian coffee agriculture.

Tabular Summary:

Parameter	Details

Mandates and Objectives:

- **Mandates:**
 - The Accelerating to Zero Coalition, supported by the ICCT, released a report at COP30 stating that India accounted for 57% of global electric three-wheeler sales, with continued growth in light-duty EV adoption.
- **Objectives:**
 - To showcase India's policy-driven leadership in zero-emission vehicle (ZEV) transition, especially in the light-duty and last-mile mobility segments, while setting goals for medium and heavy-duty truck electrification.

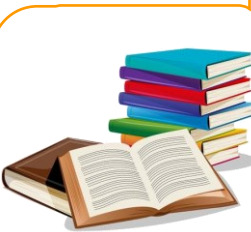

Important Terms Explained:

- **ZEV (Zero-Emission Vehicle):**
 - Vehicles that produce no tailpipe emissions, including battery electric vehicles (BEVs) and hydrogen fuel cell vehicles. ZEVs help reduce urban air pollution and greenhouse gas emissions.
- **FAME (Faster Adoption and Manufacturing of Hybrid and Electric Vehicles):**
 - A flagship government subsidy program launched in India to promote the adoption of electric vehicles by offering incentives on purchases and charging infrastructure.

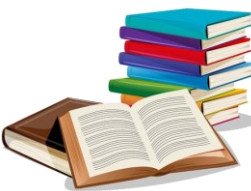

Important Terms Explained:

- **PM E-Drive Scheme:**
 - Launched to accelerate the adoption of EVs in India, this scheme targets 2.5 million electric two-wheelers and 320,000 electric three-wheelers, backed by \$315 million in subsidies for vehicles and charging infrastructure.
- **Accelerating to Zero Coalition (A2Z):**
 - A global multi-stakeholder alliance promoting the transition to ZEVs; the International Council on Clean Transportation (ICCT) serves as the secretariat for the initiative.

➤ **What is the primary objective of the newly launched 'SARAL SIMS' facility introduced by the Ministry of Steel in November 2025?**

- A) To track exports of finished steel products
- B) To simplify steel import registration for small and export-linked consignments
- C) To regulate steel pricing in the domestic market
- D) To mandate quality checks on all steel imports
- E) To promote steel manufacturing by large industries only

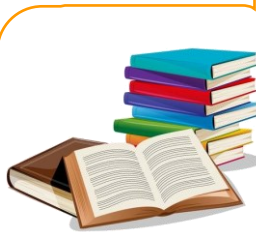

Answer

B) To simplify steel import registration for small and export-linked consignments

Event and Location:

- **Event:** Launch of SARAL SIMS facility for simplified steel import registration
- **Location:** Pan India (via online portal)
- **Date:** November 20, 2025 (Effective from November 21, 2025)

Mandates and Objectives:

- **Mandates:**
 - The Ministry of Steel launched SARAL SIMS, a simplified steel import registration facility under the Steel Import Monitoring System (SIMS), aimed at small importers and export-linked consignments.
- **Objectives:**
 - To enhance ease of doing business by simplifying the registration process for small quantity imports and importers under Advance Authorization, SEZ, and EOU routes by eliminating consignment-wise approvals and minimizing procedural burdens.

Important Terms Explained:

- **SARAL SIMS:**
 - A new, simplified facility under SIMS allowing small importers and export-oriented entities to register once annually for steel imports instead of per consignment.
 - It covers small imports (≤ 10 MT each) with a cap of 1000 MT annually (500 MT for FY 2025-26) and export-linked imports with no quantity limit.

Important Terms Explained:

- **SIMS (Steel Import Monitoring System):**
 - A pre-import registration system for steel imports in India under which importers must declare details of their steel consignments before clearance. It helps the government monitor steel inflows and market trends.
- **Advance Authorization / SEZ / EOU:**
 - Export-linked import mechanisms in India under which entities can import inputs duty-free for use in the production of export goods.
