- A) Serum Institute of India
- B) Bharat Biotech
- C) Indian Council of Medical Research
- D) Indian Immunologicals Ltd only
- E) Ministry of Ayush

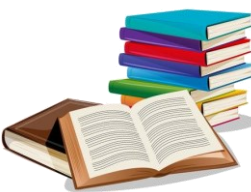

**Answer**

**C) Indian Council of Medical Research**

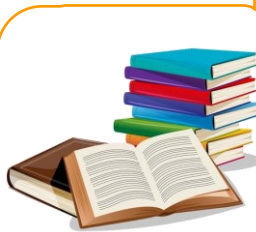

## Event and Location:

- **Event:** Phase I clinical trials launched for improved Kyasanur Forest Disease (KFD) vaccine
- **Location:** Affected states in Western Ghats region, India (notably Karnataka)
- **Date:** February 7, 2026

## Mandates and Objectives:

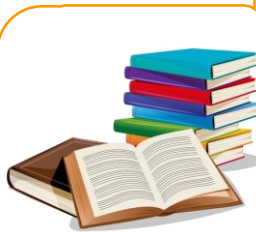

- **Mandates:** The Indian Council of Medical Research (ICMR), in collaboration with National Institute of Virology and Indian Immunologicals Ltd, initiated Phase I trials for an indigenous, improved KFD vaccine after successful animal testing.
- **Objectives:** To develop a safe and effective region-specific vaccine for Kyasanur Forest Disease, reduce rural health vulnerability, and strengthen India's public health preparedness and vaccine research capacity.

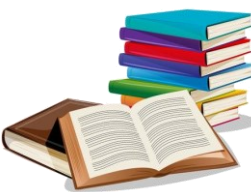

## Important Terms Explained:

- **Kyasanur Forest Disease (KFD):** A tick-borne viral disease endemic to India's Western Ghats, causing fever, bleeding, and neurological symptoms, and primarily affecting forest workers and rural populations.
- **ICMR (Indian Council of Medical Research):** India's apex medical research body under the Ministry of Health and Family Welfare, leading innovations in diagnostics, vaccines, and outbreak response.

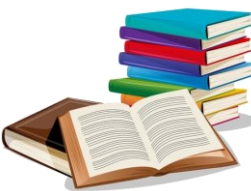

## Important Terms Explained:

- **CDSCO (Central Drugs Standard Control Organization):** India's national regulatory authority for drugs and clinical trials, responsible for approving vaccine phases and ensuring trial safety and quality.

## Tabular Summary:

- A) Kenya
- B) India
- C) Australia
- D) South Africa
- E) Brazil

**Answer**  
**D) South Africa**

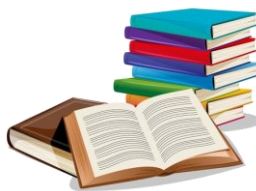

## Event and Location:

- **Event:** Launch of South Africa's first homegrown foot-and-mouth disease (FMD) vaccine
- **Location:** Johannesburg, South Africa
- **Date:** February 7, 2026

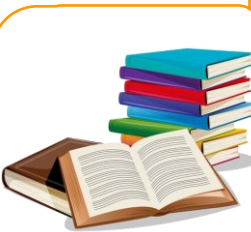

## Mandates and Objectives:

- **Mandates:** The Agricultural Research Council of South Africa developed and launched the country's first indigenously produced FMD vaccine in nearly two decades, with an initial batch of 12,900 doses.
- **Objectives:** To reduce import dependency, enhance animal health security, enable faster outbreak response, and assist in regaining FMD-free status for improved global trade and farmer support.

## Important Terms Explained:

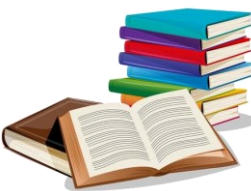

- **Foot-and-Mouth Disease (FMD):** A highly contagious viral disease affecting cloven-hoofed animals like cattle, pigs, sheep, and goats. It leads to severe economic losses due to drops in milk, meat production, and export bans.
- **Agricultural Research Council (ARC):** South Africa's premier agricultural science body responsible for research, development, and production of vaccines, including the newly launched FMD vaccine.
- **FMD-Free Status:** An official disease-free certification granted by the World Organisation for Animal Health (WOAH), essential for resuming livestock exports and gaining global market trust.
