- B) ₹3,130.77 crore
- C) ₹3,630.77 crore
- D) ₹4,230.77 crore
- E) ₹4,630.77 crore

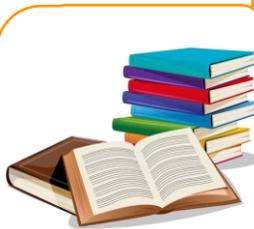

Answer

C) ₹3,630.77 crore

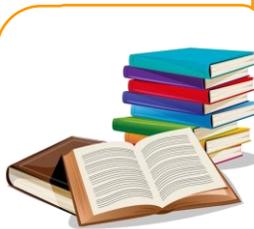

Event and Location:

- **Event:** The Union Cabinet approved the revised capital cost for a greenfield connectivity project linking the Delhi–Mumbai Expressway with Jewar International Airport.
- **Location:** Uttar Pradesh and Haryana
- **Date:** March 11, 2026

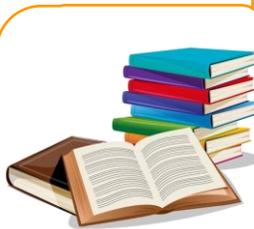

Mandates and Objectives:

- **Mandates:** The project involves construction of a 31.42 km greenfield corridor connecting the Delhi-Faridabad-Ballabhgarh-Sohna spur of the Delhi-Mumbai Expressway to Jewar International Airport, with part of the stretch to be built as an elevated highway under the Hybrid Annuity Mode (HAM).
- **Objectives:** The project aims to improve airport connectivity, reduce travel time, strengthen passenger and cargo movement, create multimodal transport integration across the NCR, and enhance logistics efficiency and regional economic integration.

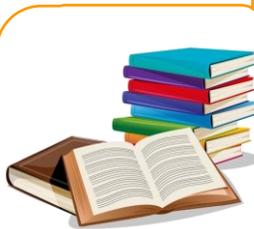

Important Terms Explained:

- **Greenfield project:** A new infrastructure project built from scratch on undeveloped land rather than upgrading an existing route or facility.
- **Jewar International Airport:** Also known as Noida International Airport, it is a major upcoming aviation hub in Gautam Buddha Nagar, Uttar Pradesh.
- **Delhi–Mumbai Expressway:** A major high-speed expressway corridor designed to improve connectivity between Delhi and Mumbai and support economic activity along its route.

Important Terms Explained:

- **Hybrid Annuity Mode (HAM):** A public-private partnership model for highway development in which the government and private developer share project costs and implementation responsibilities.
- **Multimodal transport network:** An integrated transport system in which roads, expressways, freight corridors, and other networks work together for seamless movement of passengers and cargo.
- **Dedicated Freight Corridor (DFC):** A specialized railway freight network designed to improve cargo movement efficiency and reduce pressure on passenger rail routes.
