- A) Gold exports
- B) Coal imports
- C) Oil supply
- D) Wheat trade
- E) Rare earth minerals

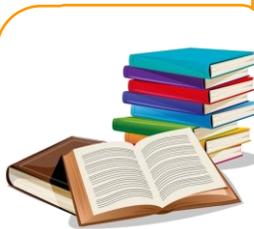

Answer
C) Oil supply

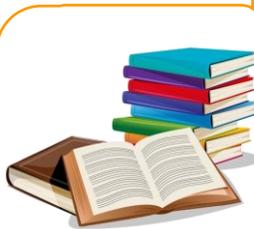

Event and Location:

- **Event:** A 22-nation coalition has moved to protect shipping through the Strait of Hormuz after Iranian restrictions raised concerns over disruption to global oil supply and maritime trade.
- **Location:** Strait of Hormuz, Gulf region.
- **Date:** March 2026.

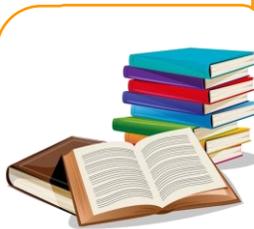

Mandates and Objectives:

- **Mandates:** The coalition aims to secure maritime shipping routes, protect civilian vessels, uphold freedom of navigation, and prevent disruption in the movement of oil and trade through the Strait of Hormuz.
- **Objectives:** It seeks to stabilize global energy markets, ensure uninterrupted oil supply, reduce risks to international shipping, and avoid wider economic disruption caused by rising tensions in the Gulf region.

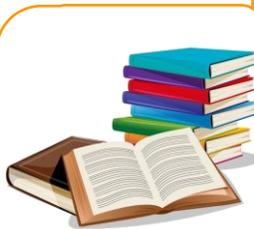

Important Terms Explained:

- **Strait of Hormuz:** It is a narrow but highly strategic sea passage that connects the Persian Gulf with global maritime routes and is one of the world's most important oil transit chokepoints.
- **Maritime Coalition:** It refers to a group of countries working together to protect sea lanes, shipping routes, and commercial vessels in sensitive waters.
- **Freedom of Navigation:** It is the principle under international law that ships of all countries should be able to move freely through international waters without unlawful restrictions.

Important Terms Explained:

- **Oil Supply Chokepoint:** It is a narrow geographic route through which a major share of the world's oil passes, making it critical for global energy security.
- **Strategic Oil Reserves:** These are emergency oil stocks maintained by countries or agencies to reduce the impact of sudden supply disruptions.
- **International Energy Agency (IEA):** It is an international organization that works on energy security, market stability, and coordinated responses during energy crises.
