- **Event:** The Union Health Ministry launched a comprehensive framework for managing childhood diabetes.
- **Location:** India.
- **Date:** May 4, 2026.

## Mandates and Objectives:

- **Mandates:** The framework provides a structured national approach for early screening, diagnosis, treatment, monitoring, and long-term care of children with diabetes from birth to 18 years.
- **Objectives:** The objective is to ensure timely detection, free medical support, uninterrupted treatment, reduced complications, and lower diabetes-related mortality among children.

## Important Terms Explained:

- **Childhood diabetes:** It refers to diabetes diagnosed in children and adolescents, requiring timely detection, monitoring, treatment, and long-term care.
- **Diabetes Mellitus:** It is a chronic condition in which the body cannot properly regulate blood glucose levels due to problems with insulin production or use.
- **Non-Communicable Diseases:** These are diseases that are not spread from person to person and usually require long-term management, such as diabetes and hypertension.

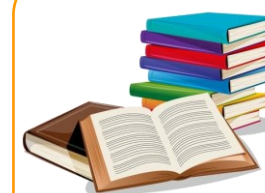

## Important Terms Explained:

- 4Ts awareness framework: It is an awareness model for Type 1 diabetes symptoms, covering Toilet, Thirsty, Tired, and Thinner as warning signs.
- **Lifelong insulin therapy:** It refers to continuous insulin treatment required by children with certain types of diabetes to control blood glucose levels.
