► **Where has Adani Green Energy commissioned its 3.37 GWh battery energy storage system?**

- A) Bhadla
- B) Pavagada
- C) Khavda
- D) Rewa
- E) Kurnool

Answer
C) Khavda.

Event and Location:

- **Event: Adani Green Energy Limited** commissioned a **3.37 GWh Battery Energy Storage System at Khavda.**
- **Location:** Khavda, Gujarat, India.
- **Date:** May 27, 2026.

Mandates and Objectives:

- **Mandates: Adani Green Energy Limited** operationalized a cumulative **3.37 GWh Battery Energy Storage System** at its renewable energy site in Khavda, Gujarat.

Mandates and Objectives:

- **Objectives:** The project aims to improve renewable energy reliability, strengthen grid stability, support peak-hour power supply, and advance India's round-the-clock clean power ambitions.

Important Terms Explained:

- **Battery Energy Storage System:** It is a system that stores surplus electricity generated from sources like solar and wind and supplies it later when demand rises or generation falls.

Important Terms Explained:

- Gigawatt-hour: Gigawatt-hour is a unit of energy that measures the amount of electricity generated, stored, or consumed over time.

Important Terms Explained:

- **Grid Stability:** Grid stability refers to the ability of the electricity network to maintain reliable and balanced power supply despite changes in demand or generation.

Important Terms Explained:

- **Renewable Energy Intermittency:** Renewable energy intermittency refers to the variation in power generation from sources like solar and wind due to weather conditions and time of day.

Important Terms Explained:

- **Round-the-Clock Clean Power:** Round-the-clock clean power means reliable electricity supply from renewable sources supported by storage or hybrid systems throughout the day and night.

Tabular Summary:

Parameter	Details
Event name	Commissioning of 3.37 GWh Battery Energy Storage System.
Date	May 27, 2026.
Location	Khavda, Gujarat.
Company	Adani Green Energy Limited.
Storage capacity	3.37 GWh.
Global status	It is described as the world's largest single-location battery storage deployment outside China.
Khavda project capacity	The Khavda renewable energy plant has a planned capacity of 30 GW by 2029.
Strategic value	The project supports renewable reliability, peak demand management, grid stability, and clean energy transition.

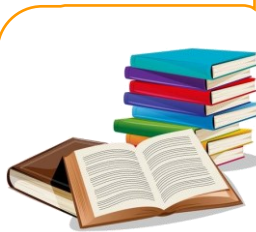

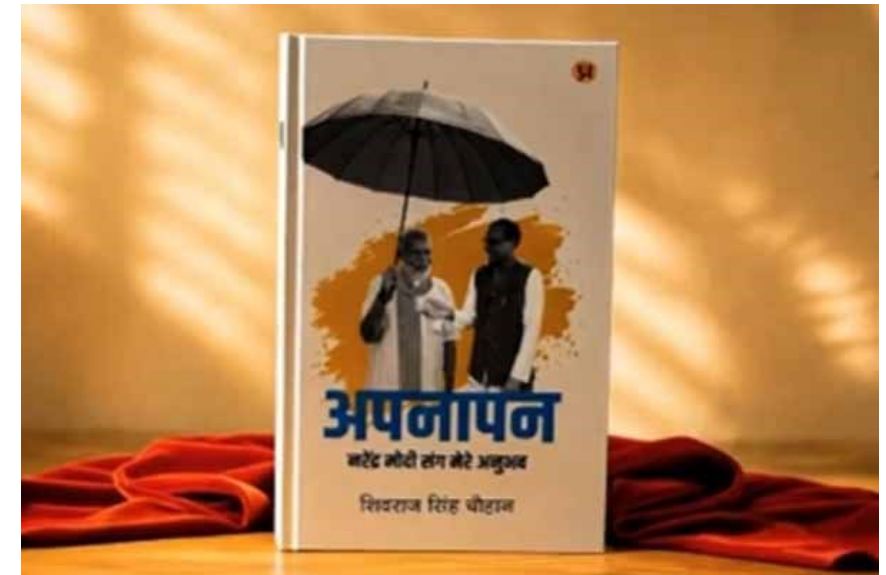

► Who authored the book **Apnapan: Narendra Modi Sang Mere Anubhav?**

- A) M Venkaiah Naidu
- B) H D Deve Gowda
- C) Shivraj Singh Chouhan
- D) Mohan Yadav
- E) Manohar Lal

Answer

C) Shivraj Singh Chouhan.

Event and Location:

- **Event: Union Minister Shivraj Singh Chouhan** launched his book **Apnapan: Narendra Modi Sang Mere Anubhav** on his political experiences with **Prime Minister Narendra Modi**.
- **Location: New Delhi, India.**
- **Date: May 27, 2026.**

Mandates and Objectives:

- **Mandates:** The book presents **Shivraj Singh Chouhan**'s decades-long experiences, observations, and political association with **Prime Minister Narendra Modi** across organizational politics, state governance, and Union-level administration.

Mandates and Objectives:

- **Objectives:** The book aims to highlight **Narendra Modi's** leadership style, governance approach, political strategy, organizational discipline, human sensitivity, and nation-building vision.

Important Terms Explained:

- **Apnapan: Narendra Modi Sang Mere Anubhav:** It is a book written by **Shivraj Singh Chouhan** that records his personal and political experiences with **Prime Minister Narendra Modi**.

Important Terms Explained:

- **Ekta Yatra:** It was a **1991** national campaign associated with hoisting the Indian tricolour at **Lal Chowk**, Srinagar, and promoting national unity and patriotism.

Important Terms Explained:

- **Technology-Driven Governance:** It refers to the use of digital tools, data systems, and technology-based platforms to improve public administration and service delivery.

Important Terms Explained:

- **Organizational Politics:** It refers to political work involving party structure, cadre coordination, strategy, leadership development, and grassroots mobilization.

➤ **Which Indian institute developed CLEAR technology for advanced protein imaging and spatial protein mapping?**

- A) Indian Institute of Technology Delhi
- B) Jawaharlal Nehru Centre for Advanced Scientific Research
- C) Indian Council of Medical Research
- D) All India Institute of Medical Sciences
- E) National Institute of Immunology

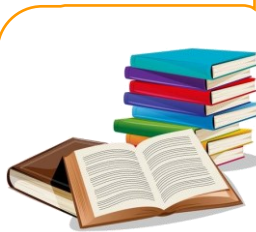

Answer

B) Jawaharlal Nehru Centre for Advanced Scientific Research.

Event and Location:

- **Event:** Indian scientists developed **CLEAR** technology, a breakthrough protein imaging platform for advanced disease diagnosis and precision medicine.
- **Location:** Bengaluru, Karnataka, India.
- **Date:** May 27, 2026.

Mandates and Objectives:

- **Mandates:** The technology enables researchers to visualize multiple proteins within the same biological sample using a single fluorescent marker and repeated imaging cycles.

Mandates and Objectives:

- **Objectives:** It aims to improve cancer diagnosis, neurological disease detection, immunology research, drug development, and precision medicine through detailed spatial protein mapping.

Important Terms Explained:

- **Cleavable Light-Erased Antibody Reporter: CLEAR** is an imaging technology that uses an erase-and-reuse method to repeatedly detect different proteins in the same biological sample.

Important Terms Explained:

- **Spatial Proteomics:** Spatial proteomics is the study of proteins based on their identity, location, and interaction inside tissues or cells.

Important Terms Explained:

- **Fluorophore:** A fluorophore is a fluorescent chemical marker used to label specific biological molecules so they can be visualized under a microscope.

Important Terms Explained:

- **Precision Medicine:** Precision medicine is a healthcare approach that customizes diagnosis and treatment based on individual biological features and disease patterns.

Important Terms Explained:

- **365 nm LED Light Pulse:** A **365 nm LED** light pulse is used in **CLEAR** to erase the fluorescent signal gently without damaging the biological sample.

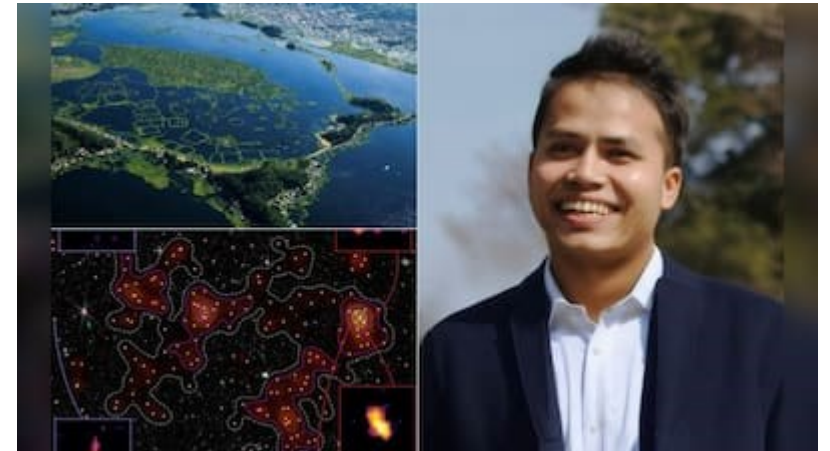

Tabular Summary:

Parameter	Details
Event name	Development of CLEAR technology.
Date	May 27, 2026.
Location	Bengaluru, Karnataka, India.
Developing institute	Jawaharlal Nehru Centre for Advanced Scientific Research, Bengaluru.
Lead scientist	Prof. Sarit S. Agasti led the research team.
Collaborating institution	Indian Institute of Science, Bengaluru collaborated in testing the platform.
Core feature	It uses a single fluorescent marker and repeated erase-and-reuse imaging cycles.
Significance	It can support cancer diagnosis, neurological disorder detection, immunology, drug development, and precision medicine.

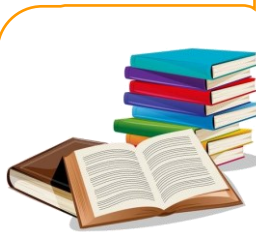

➤ **Who led the discovery of the ancient Loktak Protocluster?**

- A) Dr S Somnath
- B) Dr Ronaldo Laishram
- C) Dr K Sivan
- D) Dr Ritu Karidhal
- E) Dr G Madhavan Nair

Answer

B) Dr Ronaldo Laishram.

Event and Location:

- **Event:** Indian astrophysicist **Dr Ronaldo Laishram** led the discovery of the ancient **Loktak Protocluster**, described as a “city of galaxies” under construction.
- **Location:** Early universe, with the discovery named after **Loktak Lake in Manipur, India**.
- **Date:** May 27, 2026.

Mandates and Objectives:

- **Mandates:** The research identified a **12.6**-billion-year-old protocluster made up of young galaxies forming under gravitational influence in the early universe.

Mandates and Objectives:

- **Objectives:** The discovery aims to improve scientific understanding of galaxy formation, cosmic structure development, gravitational clustering, and the evolution of present-day galaxy clusters.

Important Terms Explained:

- **Loktak Protocluster:** It is a massive ancient cosmic structure made up of young galaxies that existed when the universe was about **1.2 billion** years old.

Important Terms Explained:

- **Protocluster:** A protocluster is an early-stage galaxy cluster where galaxies are still coming together under the influence of gravity.

Important Terms Explained:

- **Galaxy Formation:** Galaxy formation refers to the process through which stars, gas, dark matter, and gravity combine to create galaxies over cosmic time.

Important Terms Explained:

- **James Webb Space Telescope:** It is an advanced space telescope used to observe distant galaxies, early stars, and ancient cosmic structures.

Important Terms Explained:

- **Subaru Telescope:** It is a major astronomical telescope used for deep-space observations and the study of distant celestial objects.

Tabular Summary:

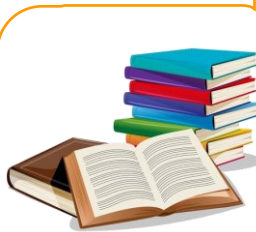

Parameter	Details
Event name	Discovery of the Loktak Protocluster.
Date	May 27, 2026.
Lead scientist	Dr Ronaldo Laishram.
Scientist's origin	Khangabok, Thoubal district, Manipur.
Current affiliation	National Astronomical Observatory of Japan, Tokyo.
Age of structure	The Loktak Protocluster dates back 12.6 billion years.
Instruments used	Subaru Telescope and James Webb Space Telescope.
Publication	The research was published in The Astrophysical Journal Letters.

- Which advanced AI system has reportedly raised cybersecurity concerns leading India to intensify checks across critical digital infrastructure?

- A) Gemini
- B) Mythos
- C) Copilot
- D) Llama
- E) Grok

Answer
B) Mythos.

Event and Location:

- **Event:** India intensified cybersecurity checks across critical banking, financial, government, and enterprise software systems amid concerns over advanced AI-related risks.
- **Location:** India.
- **Date:** May 27, 2026.

Mandates and Objectives:

- **Mandates:** Indian cybersecurity agencies, government teams, and major technology firms are reportedly testing critical software systems against vulnerabilities linked to Anthropic's advanced AI system, Mythos.

Mandates and Objectives:

- **Objectives:** The exercise aims to strengthen digital resilience, protect critical infrastructure, detect possible software vulnerabilities, and prepare India's systems against emerging AI-powered cyber threats.

Important Terms Explained:

- **Mythos:** Mythos is an advanced AI system linked to Anthropic that has reportedly raised cybersecurity concerns due to its potential capabilities in automation, reasoning, software interaction, and digital task execution.

Important Terms Explained:

- **Cybersecurity:** Cybersecurity refers to the protection of digital systems, networks, software, and data from unauthorized access, disruption, misuse, or cyberattacks.

Important Terms Explained:

- **Critical Digital Infrastructure:** Critical digital infrastructure includes essential technology systems such as banking platforms, payment networks, government portals, cloud systems, and mission-critical applications.

Important Terms Explained:

- **Threat Simulation:** Threat simulation is a cybersecurity practice where possible cyberattack scenarios are tested to identify weaknesses and improve system preparedness.

Important Terms Explained:

- **AI Governance Framework:** An AI governance framework is a set of rules, processes, and controls used to ensure safe, secure, ethical, and accountable use of artificial intelligence systems.

Tabular Summary:

Parameter	Details
Event name	India's intensified cybersecurity checks against advanced AI risks.
Date	May 27, 2026.
Location	India.
AI system mentioned	Anthropic's advanced AI system, Mythos.
Sectors under focus	Banking, financial systems, government digital platforms, enterprise software, and mission-critical applications.
Key agencies involved	Government agencies, cybersecurity teams, and major technology firms.
Major concern	Advanced AI systems may be misused for vulnerability discovery, code manipulation, social engineering, and cyber reconnaissance.
Strategic value	The exercise supports stronger digital defenses, critical infrastructure resilience, and AI-era cybersecurity preparedness.

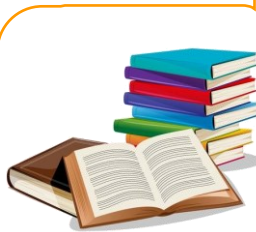

- Which two AI-powered platforms were launched by the Indian Army to strengthen battlefield decision-making and logistics management?

- A) Agni and Akash
- B) Kautilya and Q-FORCE
- C) Vajra and Prahar
- D) Netra and Garuda
- E) Shakti and Trinetra

Answer

B) Kautilya and Q-FORCE.

Event and Location:

- **Event:** The Indian Army launched Kautilya and Q-FORCE platforms to enhance AI-driven warfare capabilities.
- **Location:** India.
- **Date:** May 27, 2026.

Mandates and Objectives:

- **Mandates:** The Indian Army introduced the Kautilya and Q-FORCE digital platforms to improve intelligence processing, battlefield decision-making, logistics management, real-time data integration, and operational efficiency.

Mandates and Objectives:

- **Objectives:** The initiative aims to strengthen India's military modernization, support data-driven warfare, improve situational awareness, and prepare the Army for AI-integrated network-centric operations.

Important Terms Explained:

- **Kautilya:** It is an AI-enabled decision support platform designed for intelligence processing, structured data generation, AI-powered analytics, natural language processing, and faster battlefield interpretation.

Important Terms Explained:

- **Q-FORCE:** It is a military logistics and sustainment management platform focused on inventory management, supply chain coordination, equipment sustainment, and resource deployment.

Important Terms Explained:

- **Artificial Intelligence:** Artificial intelligence refers to computer-based systems that can analyze data, identify patterns, support decision-making, and automate complex tasks.

Important Terms Explained:

- **Natural Language Processing:** Natural language processing is an AI technology that enables systems to understand, interpret, and process human language for faster information use.

Important Terms Explained:

- **Network-Centric Military Operations:** Network-centric military operations use connected digital systems, real-time data, sensors, and communication networks to improve battlefield coordination and decision-making.

Tabular Summary:

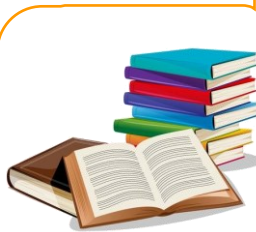

Parameter	Details
Event name	Launch of Kautilya and Q-FORCE platforms.
Date	May 27, 2026.
Location	India.
Launching authority	Indian Army.
Platforms launched	Kautilya and Q-FORCE.
Kautilya focus area	AI-enabled intelligence processing, data analysis, and battlefield decision support.
Q-FORCE focus area	Military logistics, inventory management, supply chain coordination, and sustainment support.
Strategic value	The platforms support India's transition towards AI-enabled, data-driven, and network-centric warfare.

► **Where was the Third India-Nordic Summit 2026 held?**

- A) Copenhagen
- B) Helsinki
- C) Oslo
- D) Stockholm
- E) Reykjavik

Answer
C) Oslo.

Mandates and Objectives:

- **Mandates:** India and the five Nordic countries agreed to strengthen cooperation in clean energy, climate action, Arctic research, digital innovation, blue economy, trade, defence, and sustainable growth.

Mandates and Objectives:

- **Objectives:** The summit aimed to deepen India-Nordic strategic cooperation by combining Nordic expertise in green technologies and innovation with India's large market, skilled talent, manufacturing capacity, and digital economy.

Important Terms Explained:

- **Green Technology and Innovation Strategic Partnership:** It is a strategic cooperation framework between **India and Nordic** countries focused on renewable energy, green hydrogen, sustainable technologies, climate mitigation, digital governance, water management, and innovation systems.

Important Terms Explained:

- **India-Nordic Summit:** It is a high-level diplomatic platform between **India and Denmark**, Finland, Iceland, Norway, and Sweden to promote cooperation in innovation, green technologies, sustainable development, trade, and strategic sectors.

Important Terms Explained:

- **India-EFTA Trade and Economic Partnership Agreement:** It is a trade agreement between India and the **European Free Trade Association** countries, which include Iceland, Norway, Switzerland, and Liechtenstein.

Important Terms Explained:

- **Arctic Cooperation:** It refers to collaboration on scientific research, climate protection, sustainable development, connectivity, governance, and capacity building related to the Arctic region.

Important Terms Explained:

- **Blue Economy:** It refers to the sustainable use of ocean resources for economic growth, maritime trade, fisheries, marine conservation, and coastal development.

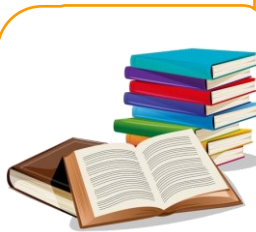

Tabular Summary:

Parameter	Details
Event name	Third India-Nordic Summit 2026.
Date	May 19, 2026.
Location	Oslo, Norway.
Participating countries	India, Denmark, Finland, Iceland, Norway, and Sweden.
Major outcome	India and Nordic countries elevated ties into a Green Technology and Innovation Strategic Partnership.
Key focus areas	Clean energy, climate action, Arctic research, digital innovation, blue economy, trade, and defence.
Trade momentum	Bilateral trade quadrupled in the last decade and investment inflows increased by nearly 200%.
Strategic value	The summit strengthened India's cooperation with Nordic countries in green growth, technology, maritime sustainability, and strategic manufacturing.

➤ Which mission launched the Investors Support Portal to assist semiconductor investors in India?

- A) Digital India Mission
- B) India Semiconductor Mission
- C) National Manufacturing Mission
- D) Startup India Mission
- E) Make in India Mission

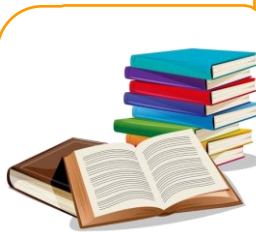

Answer

B) India Semiconductor Mission.

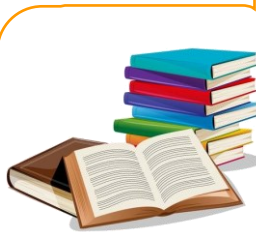

Event and Location:

- **Event:** India Semiconductor Mission launched the **Investors Support Portal** to support semiconductor investors and ecosystem players.
- **Location:** India.
- **Date:** May 27, 2026.

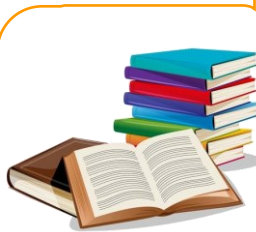

Mandates and Objectives:

- **Mandates:** The portal provides single-window access to semiconductor schemes, policy guidelines, regulatory requirements, project information, investor support services, and grievance registration.

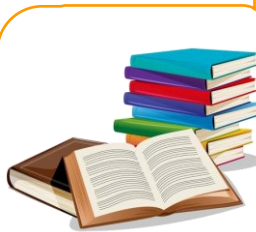

Mandates and Objectives:

- **Objectives:** It aims to simplify investor engagement, ensure faster grievance resolution, improve policy clarity, and strengthen India's semiconductor manufacturing ecosystem under the **Semicon India Programme**.

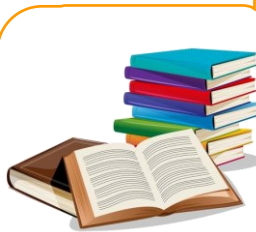

Important Terms Explained:

- **Investors Support Portal:** It is a dedicated online platform launched by **India Semiconductor Mission** to help semiconductor investors with schemes, approvals, policy guidance, and grievance redressal.

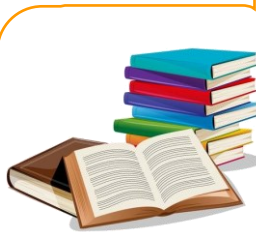

Important Terms Explained:

- **Semicon India Programme:** It is India's flagship programme to build a domestic semiconductor ecosystem through fabrication, chip packaging, design support, supply chain resilience, and global investment attraction.

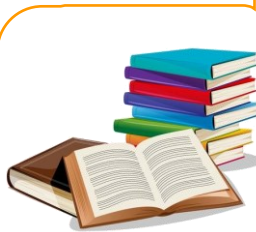

Important Terms Explained:

- **Single-Window Facilitation System:** It is a digital coordination mechanism that provides investors with one central access point for approvals, support services, information, and issue resolution.

Important Terms Explained:

- **Grievance Resolution Mechanism:** It is a system that allows investors to register operational concerns or challenges for coordinated action by relevant officials and agencies.

SCHEMES & INITIATIVES

Tabular Summary:

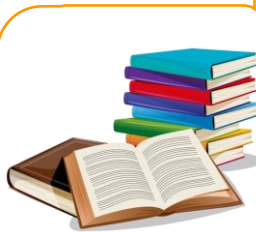

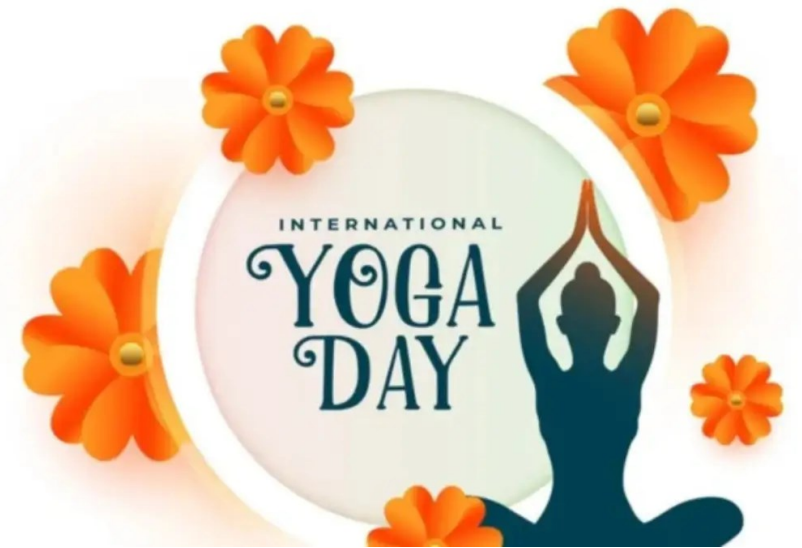

Parameter	Details
Event name	Launch of Semiconductor Investors Support Portal.
Date	May 27, 2026.
Location	India.
Launching authority	India Semiconductor Mission.
Parent ministry	Ministry of Electronics and Information Technology.
Key feature	The portal provides single-window investor facilitation and grievance registration.
Approved projects	12 fab and packaging projects and 24 semiconductor design projects have been approved.
Strategic value	It supports India's goal of becoming a globally competitive semiconductor manufacturing destination.
